As you know, language is a road map of culture. It tells you where its people come from and where they are going. If you know more than one language you will be able to live better life. You can travel abroad, meet new people and communicate with them. It can help you to get new friends. It is the most important.

I believe, that language is a road map of culture. Russian has lots of new and foreign words. There are a lot of examples. In our language a lot of French, English words because we talk with native speakers and take new words from their language. Language changes every day. English has become faster. There are lots of new words in English.

My sister knows English and Russian. She is very clever. Her speech is rich. Nasty. I know much about Russian and hope that I will be like her. I would like to say that I love her very much and hope that I will be like her.

In conclusion, I would like to say that you need to learn new languages. It can give you a lot of benefits. Language can tell a lot about people. It is a real road map of a culture. Language helps people to share their knowledge, technologies. It helps to develop science.
