Language is a very important part of our life. It helps us to share our emotions and ideas with other people. Moreover, with its help we can describe a lot of things, that seem important. Rita Mae Brown once said: ~~Language is the road map of a culture.~~ It tells you where its people come from and where they are going. >> I believe, that people should think about this amazing phrase and try to find a sence in it.

I agree with Rita Mae Brown. We have been using language since ~~an~~ ancience and because of it language is a great way to see a development of society. Firstly, people make up new words every year, because they want to express their emotions as much as they can. Secondly, languages gather characteristics from all cultures and spread them over the world. It helps us to learn new things about other countries.

For example, now~~ad~~ays Russians use a lot of words, that came to our language from different countries. It shows a huge influence of globalization on our world.

In conclusion, I want to say that language greatly shows the development of our world and we need to make our language even better and realize the importance of it in our life.
